## PRODUCT ANNOUNCEMENT

### TRACPLUS ANNOUNCES “TRULY PORTABLE” IRIDIUM TRACKING

Dunedin-based company TracPlus Global has announced support for NAL Research’s range of portable tracking terminals.

At only 170 grams, and measuring 112mm long, the pocket sized NAL9601 is smaller and lighter than any other portable tracking product currently available.

“The NAL9601 is not only smaller and lighter than competing products, it also includes a battery pack which makes it a truly portable unit, with no need for power cables that represent a potential hazard in the cockpit environment” said TracPlus CEO, Chris Hinch.

“The tiny form factor makes it incredibly attractive to aircraft owners, as it requires no modifications to the aircraft to be installed, and can be easily moved from one aircraft to another.”

“With our new airtime pricing and a very competitive price, we believe this is the portable tracking unit that our customers have been waiting for” said Hinch.

The NAL9601 can transmit an encrypted position report as often as every 4 seconds across the global Iridium satellite network to TracPlus’s data center, where it is securely delivered to users of TracPlus’s global tracking service. The NAL9601 includes an integrated distress switch, and when permanently installed, will support the new MDT860 messaging terminal. The NAL9601 is certified to MIL-STD-810F.

The NAL9601 is now available from TracPlus Global for \$2250 + GST.

#### **About TracPlus Global**

TracPlus is an innovative system that provides global tracking of assets in all transport environments, be it aviation, maritime or land – all within a single system. TracPlus seamlessly integrates a wide-range of different tracking hardware, communications networks and software packages, giving operators, agencies and authorities alike a clear view of the ‘big picture’.

TracPlus is used in twelve countries as well as Antarctica, and is used by St John Ambulance Emergency Coordination Centres (ECC), Rescue Coordination Centre of New Zealand (RCCNZ), New York Air National Guard and Coastguard New Zealand.
