 tracplus

Connecting first responders  
**globally**

Collaborate

Coordinate

Communicate

TracPlus provides global tracking, communication and collaboration solutions for those who operate in harm's way.

We allow operators to work together more effectively by instantly sharing the location and status of their vehicle and personnel assets in real-time to achieve better mission outcomes.

TracPlus allows assets and personnel to be globally tracked and monitored 24 hours a day, 365 days a year.
