GARMIN inReach Explorer

Keep Your Team Connected, Safe and Informed

The ruggedized Garmin inReach Explorer® ensures your team is connected, everywhere. Your employee can send and receive messages, navigate their route, track and share their journey and, if necessary, trigger an SOS to get help from TracPlus' 24/7 global emergency response coordination center – all via the global Iridium satellite network.

Uninterrupted Tracking and Two-way Messaging with Iridium Satellite Network

Garmin inReach Explorer®+ offers reliable tracking and messaging via the global Iridium satellite network. Locate and communicate with your team in the field from your command center or from a team member onsite.

Increase Safety with Interactive SOS Buttons and Alerts

In case of emergency, device users can trigger an interactive SOS button which signals an alert to your emergency contacts and the TracPlus 24/7 Support team.

Maintain Accurate Bearings with TOPO Mapping and Waypoint Routings

Garmin inReach Explorer® helps your team maintain accurate bearings anywhere on or off the beaten path with a built-in digital compass, barometric altimeter and accelerometer. Full-fledged GPS on-map guidance with preloaded TOPO mapping and waypoint routings are also viewable directly on the unit.
